

Aydıncaya Group, with its experience of more than 20 years, provides services in 4 branches, including service-maintenance, spare parts manufacturing and domestic and foreign spare parts sales of underground and surface rock drilling machines. Aydıncaya Group manufactures drifters and machines of brands such as Atlas Copco-Epiroc, Sandvik-Tamrock, Montabert, Furukawa, Ingersoll Rand, Soosan and spare parts for hydraulic breakers such as Rammer, Atlas Copco, MTB, Furukawa, Krupp, Soosan and Daemo (we are not dealers, distributors or representatives of these brands).

**We are here to SOLVE your problems and CONTRIBUTE to your success.**

Aydinkaya Group has stepped into the sector by performing the service and maintenance of underground and surface rock drilling machines. The company, which took the name of Aydinkaya Group in 2017, continues its service in 4 branches, including service-maintenance, spare parts manufacturing and domestic and international spare parts sales, with its experience of more than 20 years. We continue our activities as surface drilling, underground drilling, high-speed train-metro projects, road tunnels and mines. We provide solution partnership services to our valued customers in case of malfunctions such as electrical-electronics, electric motors, hydraulic pumps, hydromotors, filters, drifter parts, sealing equipment, undercarriages.

We provide sub-industry spare parts manufacturing and sales services with high quality standards for underground and surface drilling machines. We also provide service and maintenance for these machines. The raw materials of our products are of high quality and are determined after mechanical and chemical analysis. We have the opportunity to control the quality and efficiency of our products by using spare parts of our own production in the machines we service. By identifying our customers' needs together, we support them with all our strength in engineering, research and development, planning, timely and safe delivery, after-sales service provision and training.

Aydinkaya Group, while providing Sales-Service and Spare Parts services, ensures that you get the highest efficiency from your machines by fulfilling the requirements of business and working conditions. By using its knowledge and experience in the field of construction and service in the most efficient way, it ensures that your machines run smoothly for the longest possible time by using the most suitable equipment for your machine in all kinds of service and maintenance.

AYDINKAYA GROUP, which set out with the aim of being the first and continuous choice of all companies aiming to provide efficiency and productivity in underground and aboveground projects in the construction, mining and industry sectors; it aims to be one of the leading companies in the sector by constantly increasing its production, sales and service quality with its entrepreneurial, innovative and open to development identity. Our quality principle is the slogan of "mutual satisfaction". We aim to fulfill the conditions of continuity with mutual satisfaction. The mission we undertake while maintaining our continuity is the mission of innovation. We are in search of services in pursuit of a constant question of "what can we do" in the name of innovation without repeating ourselves.

As Aydinkaya Group, our primary goal is to have reliable, quality and affordable products and satisfied customers. Whether our sales are domestic or international, we are a strict follower of the feedback about our after-sales products. We stand behind our products and services in order to control and guarantee the compatibility, suitability and longevity of our products.

Айдынкайя Групп вошла в этот сектор, выполняя сервисное обслуживание подземных и наземных буровых машин. Компания, получившая в 2017 году название Aydynkaya Group, продолжает свою деятельность в 4 филиалах, включая сервисное обслуживание, производство запасных частей и продажу запасных частей на внутреннем и международном рынках, имея более чем 20-летний опыт работы. Мы продолжаем свою деятельность в сфере поверхностного и подземного бурения, проектов высокоскоростных поездов-метро, автодорожных туннелей и шахт. Мы предоставляем нашим уважаемым клиентам партнерские услуги по поиску решений в случае неисправностей, таких как электроэлектроника, электродвигатели, гидравлические насосы, гидромоторы, фильтры, детали буровых машин, уплотнительное оборудование, ходовая часть.

Мы предоставляем услуги по производству и продаже запасных частей с высокими стандартами качества для подземных и наземных буровых машин. Мы также осуществляем сервисное и техническое обслуживание данных машин. Сырье нашей продукции имеет высокое качество и определяется после механического и химического анализа. Мы имеем возможность контролировать качество и эффективность нашей продукции, используя в обслуживаемых нами машинах запасные части собственного производства. Совместно выявляя потребности наших клиентов, мы всеми силами поддерживаем их в проектировании, исследованиях и разработках, планировании, своевременной и безопасной доставке, послепродажном обслуживании и обучении.

Айдынкайя Групп, предоставляя услуги по продаже, обслуживанию и запасным частям, гарантирует, что вы получите максимальную эффективность от своих машин, выполняя требования бизнеса и условий труда. Используя свои знания и опыт в области строительства и обслуживания наиболее эффективным способом, мы гарантируем бесперебойную работу ваших машин в течение максимально длительного времени, используя наиболее подходящее для вашей машины оборудование во всех видах обслуживания и ремонта.

Айдынкайя Групп, целью которой является быть первым и постоянным выбором всех компаний, стремящихся обеспечить эффективность и производительность подземных и наземных проектов в строительном, горнодобывающем и промышленном секторах; она стремится стать одной из ведущих компаний в этом секторе, постоянно повышая качество производства, продаж и обслуживания, используя свою предпринимательскую, инновационную и открытую для развития индивидуальность. Наш принцип качества – это лозунг «взаимного удовлетворения». Мы стремимся выполнить условия преемственности при взаимном удовлетворении. Миссия, которую мы берем на себя, сохраняя преемственность, — это миссия инноваций. Мы находимся в поиске услуг, постоянно задаваясь вопросом «что мы можем сделать» во имя инноваций, не повторяясь.
